

CAL/OSHA AWARD

ACCO is Honored for our Commitment to Jobsite Safety

ACCO has received an award for the Sacramento Airport Landside project from Cal-OSHA. The Golden Gate Award is recognition that is given to specific sites where they have visited on a consultation basis and found it to be exemplary.

OSHA inspectors came out to the site and met with the ACCO Safety Team on three occasions to review our Injury & Illness Prevention Plan, site preparations and field conditions while work was in progress.

Thanks again to everyone involved for their commitment and dedication to a safe project.
